2. Changes in Registration Information

a. Drops and Adds

A change in registration (thd dropping of ane/or adding of a course or courses) may be made by filling out an authorization for change in registration form in the office of the student's Dean. **(See below for procedure to make a change in section only.) *Changes made on or before Friday, February 11*, need the approval of the student's adviser, the approval of the department offering the course if the change involves the addition of a course for which more than one section is being taught, and the approval of the student's Dean. (Departmental approval is not normally needed during this period for the drop of a course or the addition of a single-sectioned course.) Only in exceptional cases will a student be permitted to

** Students dropping all courses are considered to be withdrawing from the Universityfor the semester and must follow procedures outlined in paragraph 4, below.

add a course after the first week of instruction. In the event such permission is given, the change in registration form must be approved by the student's adviser, the department offering the course, and the student's Dean.

The last day that a course may be dropped is Friday, February 25. After that date, a student who drops a course will receive a mark of failure in the course.

No change in registration is official until it has been approved by the appropriate University officials and filed by the student in the office of the Registrar. After the first week of the semester, i.e., beginning February 14, a charge of $5.00 is made for each change in registration.

Credit cannot be obtained for courses for which the student is not officially registered in both the office of the student's Dean and the Registrar.

CHANGE IN SECTION: If a student wishes to change from one section of a course for which he is registered to another he must secure the approval of the department offering the course. To be official a copy of the change in section form must be filed by the student in the Office of the Registrar. No fee is charged for a section change.

b. Change in Curriculum

All changes in curriculum must be filed with the Registrar. The rules governing changes in college (see below) also apply to changes in curriculum with the following exception: a curriculum change must be approved only by the student's Dean, and in the event of a change after registration but before the end of the first week of the semester, only a duplicate Permit Card must be approved (no new course card is required).

c. Change in College

To effect a change in college within the University a student must secure signatures of his present Dean and of the Dean of the college to which he wishes to transfer on the Permit to Register card which is in the packet of registration materials. A change in college should be executed *before* the student reports at the Armory to complete registration.

No change in college is permitted other than at stated registration periods or during the first week of the semester. If a student must change colleges *after* completing registration but *before* the end of the first week of the semester, he should secure from the Office of the Registrar a duplicate Permit Card on which he should secure the necessary signature. In this event, the student must also have a new course card signed by the Dean of his new college. Both the Permit and the Course Card must be filed with the Registrar no later than February 11.

d. Change in Name

A student who has officially changed his name since he was last registered must indicate his new name on the Current Address Form and on the other registration cards which are in the registration packet. No change of name can be filed with the registrar *after* the student completes registration. Such a change must be noted at the time the student next registers at the University.

3. Off-campus Registrations

a. University College Courses

Any student who wishes to enroll in a course offered by the University College in addition to his other course or courses must secure the approval of the dean of U.C. after his regular dean has approved his course card and before he completes registration at the Armory. A fee ($15.00 per credit hour for undergraduates; $18.00 per credit hour for graduate students) for U.C. courses is normally charged in addition to the regular on-campus fees.

Any student who wishes to enroll *only* in a course or courses offered by the University College and not for courses on campus should *not* fill out the regular on-campus I.B.M. processed registration cards which are distributed at the Library. Such students should secure from their regular on-campus dean *written permission* to register for the course or courses. They then report to the office of the dean of U.C. file the written permission and fill out the special U.C. registration cards.

b. Baltimore Courses

Students must register through the Baltimore Office of the Registrar for all courses offered by the Schools and Colleges on the Baltimore Campus. Whenever a student carries courses both at Baltimore and at College Park, two registrations are required.

4. Withdrawals and Refunds

a. A student who wishes to withdraw from all courses for the current semester must secure an official withdrawal form from the office of his Dean, secure the necessary signatures, and file the form in the Office of the Registrar. If this is not done, the student will not be entitled to an honorable dismissal, will forfeit any refund to which he would otherwise be entitled, and will receive marks of failure in his courses. The withdrawal is complete only after the student (1) has returned all books to the Library; (2) (when appropriate) has returned his military uniform to the AFROTC Department; (3) (for all non-boarding students) has returned his identification card to the Director of Student Welfare; (4) (for all boarding students) has returned his identification card containing validation for dining hall privileges to the Auditor's Office, Administration Building; (5) (for students living in residence halls) has properly cleared his room

and returned his room key; (6) has returned all other University property; (7) has filed his properly completed withdrawal form with the Office of the Registrar.

The effective date of withdrawal and the date used in computing refunds is the date the application for withdrawal is filed in the Office of the Registrar.

b. Students withdrawing from the University will be credited for all fees charged to them except the matriculation fee and board in accordance with the following schedule:

Period from Date Instruction Begins	*Percentage Refundable*
February 7 through February 18	80%
February 21 through February 25	60%
February 28 through March 4	40%
March 7 through March 11	20%
After March 11	0%

The Matriculation Fee is not refundable in any instance.

Board is refunded only in the event the student withdraws from the University or the residence halls. Identification cards containing validations for dining hall privileges issued to boarding students must be surrendered at the Auditor's Office in the Administration Building on the day of withdrawal before any refund will be processed. In computing refunds to students who have received the benefit of scholarship, the computation will be made in such a way as to return the maximum amount to the scholarship account without loss to the University.

No refunds of Fixed Charges, Lodging, Tuition, Laboratory Fees etc., are allowed when courses are dropped, unless the student with draws completely from the University for the current semester.
